QUIET SCENES

Sometimes the missing thing is the photograph.

Use this when a scene feels empty but emotionally specific. The checklist helps decide whether absence is meaningful or whether the frame simply needs more information.

01	**Trace**	What suggests what happened?
02	**Context**	What explains the quiet?
03	**Mood**	What should remain?
04	**Need**	Would a subject improve it?
05	**Stop**	What should stay empty?

Quick reminder

Absence works when the viewer can feel the trace.

Final check

Do not fill a frame just because it is quiet.
