BEFORE EXPORT

Do not export until the edit has survived one quiet pass.

Use this final pass when an edit looks close, but not fully resolved. The goal is not more style. The goal is clearer judgment.

01	**Exposure**	Is the subject readable?
02	**Color**	Does the light still feel believable?
03	**Contrast**	Is the image clear without shouting?
04	**Distractions**	What pulls attention away?
05	**Output role**	Feed, story, print, or archive?

Quick reminder

Remove habits before adding style.

Final check

Finish for the image's role.
