FINAL PASS DISCIPLINE

Refine the edit by purpose, not by habit.

Use this when an edit looks close. The final pass should make the purpose clearer, not add another layer of style.

01	**Role**	What should this image do?
02	**Mood**	Did the edit protect the feeling?
03	**Distraction**	What can be reduced?
04	**Output**	Where will the image live?
05	**Stop**	What should you leave alone?

Quick reminder

Refinement is subtraction with intent.

Final check

Export only when the role is clear.
