FINAL PROOF

Export only after the image reads small.

Use this after an edit feels finished. The checklist catches the small problems that become obvious after posting: weak thumbnail read, heavy color, broken crop, or wrong export role.

01	**Small**	Does it read as a thumbnail?
02	**Crop**	Is the role clear?
03	**Color**	Is mood stable?
04	**Detail**	Is finish too loud?
05	**Output**	Where will it live?

Quick reminder

The last pass should simplify the edit.

Final check

If the image fails small, the post will feel weak.
