SELECTION DISCIPLINE

A clean file can still be a weak photograph.

Use this when a technically clean image keeps surviving selection even though it does not say much.

01	**Sharp**	Is it only technically clean?
02	**Reason**	Why should it exist?
03	**Light**	Does light add meaning?
04	**Frame**	Is the rectangle intentional?
05	**Need**	Does the set need it?

Quick reminder

Technical quality is permission to inspect, not proof of strength.

Final check

Do not confuse a usable file with a meaningful image.
